Abstract

This is a template for users that create their plots/tables with R and would like to avoid copying and pasting results into LaTeX.

Policy Significance Statement

To be determined. Write policy relevant articles using R and Quarto.

1. Introduction

Write your introduction here. This template uses Posit PBC (2025).

Consider the following table:

Table 1: Average miles per gallon and horse power for the mtcars dataset.

Cylinders	Mean MPG	Mean HP
4	26.66364	82.63636
6	19.74286	122.28571
8	15.10000	209.21429

Also consider this image
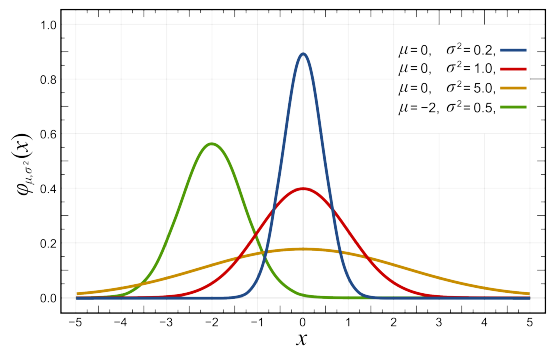

**Figure 1.** *Normal distribution from Wikipedia.*

And this R plot

Figure 2. *Using ggplot.*

2. Content

Write it here.

3. Access to source code and data

Any interested user can explore the source code on GitHub and propose improvements to the template.

4. Conclusion

I hope it's useful.
